

J.T. THORPE & SON, Inc.

Established 1906

ENGINEERS and CONTRACTORS

**REFRACTORY DESIGN-SUPPLY-INSTALLATION-MAINTAINENCE
Acid Resistant Construction—Abrasion Resistant Linings**

North America – International

J. T. Thorpe & Son, Inc. (JTT) is an Independent Refractory Engineering and Contracting Company with the capability of providing high-end refractory engineering and construction services to resolve refractory issues on any scale.

Project Safety is a core value of our company. JTT maintains an excellent safety record and is committed to the safety of our personnel on all projects.

JTT Project Managers and Engineers are capable of all areas of refractory design, turnaround scope development, thermal analysis, refractory consulting, refractory failure investigation, project budgeting, project scheduling and project management.

JTT operates independently of all refractory manufacturers. JTT Engineers and Project Managers are able to specify and supply refractory materials that are best suited for the intended application. Refractory materials are selected based on proven industry reliability, performance and cost effectiveness, or simply as preferred by individual clients.

JTT maintains a largest workforce of skilled craftsmen and experienced supervision in the Refractory Industry. JTT's designs and project execution are handled by industry experienced mechanical, chemical, metallurgical, materials and civil engineers.
