*J.T. Thorpe & Son, Inc. provides High Temperature Repairs to prevent
unscheduled shut downs with high quality , safety and low cost*

J.T. Thorpe & Son, Inc. provides high temperature repair and maintenance for the industrial marketplace throughout North America. JTT's clients benefit from our services in hot environments that would normally mandate emergency shutdowns for unscheduled maintenance tasks. Our specialized services enable our customers to continue producing while maintenance and repairs are being made in hostile environments. JTT performs comprehensive job safety analysis and evaluation on each project. JTT has specialized trained crews and EMT's available to complete repairs in closed environments up to 600 Of and even higher in open environments. JTT's local presence, excellent safety record, skilled associates, and reputation make us the obvious choice for all your high temperature repair and maintenance needs.. Let J.T. Thorpe & Son, Inc. provide you with a solution to meet your requirements today.
